**DEFINITION OF INCOME**

Housing charges are calculated based on the total gross annual income of all members and their families (over the age of 19) that reside in a unit. The total gross income includes income from any of the following sources:

1. Salary or commission income
2. Unemployment insurance income
3. Rental income – if a member owns a home and collects rent from it
4. Gain or Gain for Handicapped persons income
5. Alimony or child support payments
6. Capital Gain – interest earned on such gains is included as income
7. Investment/Interest income
8. Monies received for a foster child
9. Self-employed earnings
10. Pensions
11. Other income.....
